

CS535/CS438/EE514: Machine Learning (Fall 2024)

Programming Assignment Policies

Submission Instructions

You must submit **all** the notebook `.ipynb` files, and Python `.py` files, on LMS (search on how to extract the scripts if you're confused). **Any submissions on Dropbox or email will not be entertained. There are no grace days.**

Zip your files, naming it `Rollnumber_PAx.zip`. Do not forget to fill in your roll number for any of the files.

There is 10% deduction for not following naming convention and 20% deduction for not submitting `.py` files.

For example, if your roll number was `24100074` and you were submitting `PA2` (supposing it has 2 parts), then the submission file would look like. Submitting empty or wrong zip file will result in zero and won't be contestable.

`24100074_PA2.zip`

└─ `24100074_PA2_1.ipynb`

└─ `24100074_PA2_1.py`

└─ `24100074_PA2_2.ipynb`

└─ `24100074_PA2_2.py`

Plagiarism Policy

All work must be done independently. Any plagiarism or cheating of work from others, or the internet, will be immediately referred to the DC. If you are confused about what constitutes plagiarism, it is your responsibility to consult with the TAs in a timely manner. Ignorance is not an excuse.

Do not look at anyone else's code.

General Instructions

- Follow the notebooks.
- Consult the TAs if you want *any* help.
- Start early and finish early.
